

Entry Type: Self-guided visit

Session Overview

Whilst our Interactive Tour series is widely regarded as fantastic value, and receives praise from teachers across the curriculum year on year as part of our annual appraisals, it isn't the only option for groups wishing to enter the Aquarium.

The Explorer ticket allows groups to enter the Aquarium on a self-guided visit. The Aquarium opens its doors at 10am, and the Explorer ticket is valid from then until the doors close again at 5pm. During this time, your group are welcome to explore Aquarium, marveling at the full range of exhibits and taking full advantage of the fantastic public shows which our Discovery & learning team put on each day.

Access to private lunch spaces and bag storage is sometimes possible by prior arrangement, so if this is something that your group would benefit from, be sure to enquire about it in the booking process.

The exhibits within the Aquarium make a fantastic hook for teaching the National Curriculum, and we believe that it's possible to use them to teach students studying any subject within the statutory programme, but find the following subjects are almost unavoidable during a visit to the Aquarium

- Maths
 - Biology
 - Physics
 - Chemistry
 - English
 - Geography
 - Design & Technology
 - Art & Design
-
